SUMMARY

Data analyst with three years turning operational data into decisions, after four years inside banking operations. I know what the numbers mean because I used to be the one generating them. Strongest on SQL and dashboarding; currently learning Python properly rather than copying snippets.

EXPERIENCE

Data Analyst, Interswitch - Lagos

2023 - Present

Reporting layer for the merchant acquiring team.

- Rebuilt the daily settlement report in SQL, replacing a spreadsheet that took two people three hours every morning
- Built 11 Power BI dashboards used across three departments
- Found and documented a reconciliation error that had understated chargeback volume for seven months
- SQL, Power BI, Excel, some Python

Operations Analyst, Interswitch - Lagos

2021 - 2023

- Owned merchant onboarding checks, about 400 a month
- Automated the KYC document checklist in Excel and VBA, cutting review time by roughly half
- Promoted into the data team in 2023

Banking Operations Officer, Access Bank - Lagos

2019 - 2021

- Branch operations, account opening, transaction disputes
- Nothing technical, but it is where I learned what the data actually describes
